

Inspired by nature, perfected by technology

From the artistry of Adore's high quality, texture-enhanced visuals, to the science behind anti-microbial and scratch resistant surfaces, Adore engineers flooring that is beautiful, strong and easy to maintain offering premium value to your design space.

Adore Touch is:

- Beautiful tile and wood visuals available in two installation methods
- Soft and warm underfoot with superior anti-slip performance
- MicroCeramic™ reinforced wear layer for greater durability including anti-scratch and anti-scuff resistance
- NanoSilver™ surface coating that provides antibacterial and antimicrobial protection
- Made from 67% post recycled material, 100% recyclable.
- Backed by Adore's 25 year residential and 15 year commercial warranty

Easy click technology with four sided micro bevel

Adore uses a click profile along both edges to provide a secure and snug fit, yet with enough strength to ensure that it withstands the rigors of daily life. The short edge is clicked into place and the long edge is simply positioned at an angle and pushed into place.
